Professional Summary

As a Web Developer, I'm an avid learner and highly attentive to details. I'm skilled in JavaScript/TypeScript, React.js, Next.js, and Tailwind CSS, with a focus on building responsive, SEO-optimized web applications. Having worked with multiple startups in the past, I've gained significant experience in frontend development.

Experience

- **Flib**   **Gurgaon | Haryana**
  Frontend Engineer   *Oct'24 – Present*
  Spearheading the implementation of new features and redesigning key components to enhance user experience and optimize application performance. Refactoring existing codebases to improve SEO and search engine rankings, contributing to increased web traffic and customer engagement.

- **Noviga Automation**   **Pune | Maharashtra**
  Frontend Developer   *Sept'24*
  Collaborated with cross-functional teams to design and develop a user-friendly interface for an internal asset management system.

- **Google Developers Student Club – IKGPTU**   **Jalandhar | Punjab**
  Core Team Member   *August'23 – August'24*
  During my time in the GDSC, I had a chance to collaborate on front-end projects with my team mates alongside helping in organizing and participating in workshops and events.

Projects

- **Stripe Payment with Golang**   **GitHub**
  Stripe payment gateway implementation utilizes Stripe Go library to handle payment intents. Project includes a demo frontend to initiate payments.

- **Scientific Illustrator Portfolio**   **Live | GitHub**
  A personal portfolio for scientific illustrators with modern animations and aesthetics. Made with modern technologies like Next.js with its frontend capabilities.

- **Asset Management System**   **GitHub**
  An interface for asset management system to keep track of when automotive machineries exceeds their lifetime.
